About the Webinar

The global cyber crime continues to evolve at a rapid pace, with a rising number of data breaches each year. A cyberattack is a malicious and deliberate attempt by an individual or organization to breach the information system of another individual or organization. Long gone are the days when antivirus software and a solid firewall are enough to protect us from cyber threats. Whether in our personal lives or at work, we use technology as a solution to almost every problem. Cyber security is the practice of defending computers, servers, mobile devices, electronic systems, networks, and data from malicious attacks. It's also known as information technology security or electronic information security.

Programme Schedule

- 10:30 am** Welcome Speech
Mr. G V M Sankaracharyulu
Assistant Professor & Head, Department of Physics
- 10:40 am** Presidential Address
Dr. C A Assif
Principal, MGGAC Mahe
- 10:45 am** Felicitations
Shri P.P. Najeeb
District Informatics Officer, NIC, Mahe
Dr. K M Gopinathan
Coordinator, IQAC.
Dr. B Satheesh
Assistant Professor of Physics
- 10:55 am** Introducing the Resource Person
Dr. Priya Bharali
Assistant Professor of Physics
- 11:00 am** Lecture Begins
